*Energy*Trust®

Saving you more...

MIDDY'S

T e c h E n e r g y

Take estimating, creating proposals and quoting to a whole new level with EnergyTrust®. A unique software program that generates energy project proposals specific to your customers requirements.

EnergyTrust®

Saving you more...

Middy's have developed EnergyTrust®, a best in class multi-technology energy efficiency ROI proposal and quoting software tool. EnergyTrust® enables you to take your customer on an energy efficiency journey and help them reduce their energy bills.

With EnergyTrust® you can create Energy Efficiency Project Proposals specific to individual customer information and requirements with ease. The software is also a quoting tool allowing you to reduce quoting time, streamline your business and be more productive.

Program outputs:

▶ Client snap shots providing a quick visual of options available, cost involved and a return on investment

▶ Detailed proposal providing all necessary information to make an informed decision

▶ Your quote to your customer

▶ Middy's quote to you for equipment required to complete the project

The benefits:

▶ Energy calculators that help estimate power needs, emissions reduction and potential cost savings

▶ Coordinate projects, do complex calculations and win work in seconds

▶ Easy way to manage and streamline multi technology proposals and produce accurate, convincing proposals with ease

Technologies offered:

▶ Solar

▶ Battery Storage

▶ LED Lighting

▶ Voltage Optimisation

▶ Power Factor Correction

▶ Energy Monitoring
