MIDDY'S
Technologies

**Future Proof
Your Business**

MIDDY'S Offering you more...

Ever offered a customer the latest technology only to find out it has already been superseded? Discuss your projects with **M MIDDY'S Technologies first and future proof your business.**

Our **Technologies** team is passionate about technology, ensuring you will always receive the most up-to-date advice on designs, products, installation and programming.

Bring your customers into one of our **Technologies Smart Centres** and let them experience all the latest technologies in an interactive environment.

If you have building drawings or plans, our team can design a customized home technology solution to suit your clients' individual needs.

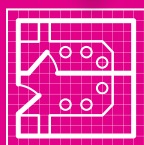

M MIDDY'S Offering you more...

The **M MIDDY'S** Technologies Process

Product Advice

Our **Technologies** team are only a phone call away if you need any advice relating to Home & Building Automation, Electronic Security, CCTV, Alarms, Access Control, Smart Technologies, Audio Visual & Home Theatre, Networking & Data Comms.

Design

Our **Technologies Smart Centres** are available so you can look, see & touch products in action. We can assist you with detailed designs for your next technology project. Bring in your customer and we can work together in offering the best solution for their specific requirements.

Quotations

Need help putting together your job quotation? No problem! Speak with our experienced staff and we can assist in providing you with a professional and competitive quote you can present to your customer.

Training

When a new technology enters the market, you can be assured **M MIDDY'S Technologies** will have a training course that positions you as a leader in this field in no time. We offer a huge range of training and development courses to upskill you and your business.

Installation, Integration & Programming

We have a network of integration partners that can assist you with installing and programming all technologies to provide a seamless solution for your customer.

After Sales Support

You can always expect a quick response from our **Technologies** team when you need support for any post installation issues, providing you with piece of mind and the confidence to tackle technology projects. For all enquiries, call **1800 778 823**
