

29th March 2018

Dear Valued Customer,

As you may be aware there is currently a worldwide shortage of key materials that make Nylon 66, the essential key component in our CABAC Nylon Cable Tie and Gland range.

We take the opportunity to confirm that we have supply in place to support your business through the next few months whilst the industry look to resolve this issue.

Over the last six months we have absorbed cost increases of 15% and it has been flagged that we will incur further substantial cost increases over the next few months. Accordingly and per the terms of our trading agreement, we advise that in 30 days we will increase Nylon Cable Tie and Gland prices by 10%. The effective date of the increase will be the 1st of May, 2018.

We will continue to keep you advised of significant developments, looking forward to resolution of this issue.

Thank you for your continued support.

Yours Sincerely,

Chris Grawich
General Manager Cabac
