Re price rise

Dear Customer

We have not raised our prices for some time. There has been an increase in the cost of steel products which we have been absorbing.

Due to this our prices will be increasing from 1st December 2018 as follows: -

- Mower Guards \$23.25 + GST for orders of 100.

We understand the impact of price increases on business and have kept the increase to a minimum.

We will work closely with you to ensure we are competitive in the current market.

We thank you for your understanding and continued support.

Regards

Paul Newley

Director
