To All Our Valued Customers,

Re: Adjustments to Selling Prices

With the further decline in demand for magnetic control gear as the lighting industry continues to transition to electronic control gear and LED lighting, the cost to manufacture magnetic control gear in Australia continues to increase.

Accordingly, we will be adjusting selling prices for all CMP magnetic products from Tuesday April 3rd, 2018.

We see this as paramount to our ability to continue to provide the proper service and stock levels that you have come to expect over the years.

An updated price file is also attached, effective for all orders placed from April 3rd.

Should you have the need to discuss these changes, please feel free to make contact with either myself or your local representative.

Thank you for your ongoing support.

Regards,

Andrew Cooper
Managing Director
Elpower Pty. Ltd.
