23rd October 2018.

Dear Valued Customers,

We wish to advise, effective the 22nd November 2018, all prices in the Gentech Lighting product range list will be impacted due to the change in the AUD/US exchange rate. This is the first Gentech price rise since April 2016, however we can no longer continue to absorb the reduction in the AUD along with the increase in local freight charges. The amended price list will be forwarded to your applicable contact fourteen 14 days before the price change takes effect. The increase will be 4.5% over the current price list. The noted price increase will apply to all orders received from the 22nd of November 2018, or where delivery has been requested for 22nd November 2018 onwards.

Thank you for your understanding.

Alex Kostic.
Administration Manager
