

9th July 2018

NOTIFICATION OF IMPENDING NEW PRICE LIST Effective Saturday 1st September 2018

MATCHMASTER has strived to offer the industry the best – from the best service, training, support, to an extensive range of quality products that are competitively priced and ready for digital.

Due to substantial increases in supplier costs due to commodity price increases Matchmaster will be releasing a new price list, effective Saturday 1st September 2018.

The current Matchmaster Trade Price will increase by 5.9% effective 1st September 2018.

We are pleased to confirm Coaxial Cable and our new CCTV range of products will remain at current prices and will not be affected by this increase, and in fact some prices have come down.

You will receive an electronic soft copy at least 30 days prior to the increase taking effect.

This decision has not been taken lightly but is one that Matchmaster has had to take considering no supplier pricing increases have been passed on during the past 2 years.

We remain committed to you, our loyal customer and to the television reception industry. We will continue to provide on-going support via quality products, technical backup, representative support and a same day pickup/next day delivery service from any of our local branches/agents located throughout Australia and New Zealand.

If you have any queries, feel free to contact your local MATCHMASTER Representative on our Toll Free Australia number **1800 AERIAL (237 425)**.

Yours Sincerely

Robert Waterford
